

# Our Environmental and Sustainability Policy

We are committed to responsible environmental and sustainable management. To deliver our commitment we will:

- Protect our environment and prevent pollution
- Fulfil our compliance obligations
- Continually improve our environmental management system to enhance environmental performance

To support this policy our Executive Committee will:

## Provide leadership

Hold site leaders accountable for sustainable environmental management.

Engage environmental professionals to provide leadership in sustainability.

Recognise that we are all responsible for the environment.

Formally implement this policy as part of company business.

Develop programmes, set objectives and monitor progress to ensure continual improvement in environmental performance.

## Ensure accountability

Comply with legal requirements.

Adopt best practice and commit to continual improvement.

Take reasonable precautions to prevent environmental incidents.

Investigate incidents and learn from them to prevent them happening again.

Foster a spirit of shared responsibility for the environment among employees and contractors.

Co-operate with regulatory agencies.

## Support sustainability

Require all contractors to adopt environmental practices consistent with our policy.

Promote efficient and sustainable use of natural resources.

Conserve energy and water, reducing waste and emissions.

Follow the principles of reduction, recovery, re-use and recycling.

Audit our environmental compliance and report results to senior management.

All Element Six employees are responsible for adhering to this policy.
